

DAY 1: MAKE 4 EMOTION THAUMATROPES

Choose colors for each emotion and paint the faces. Cut out the circles with the help of an adult. Glue each circle to the back of the other with a pencil in the middle. Put the pencil between your hands and turn the pencil as if rubbing your hands. Can you see every emotion coming and going?

You can make four different thaumatropes, one for each emotion, and use each pencil depending on the emotion you have at the moment.
